#### A CARD.

My connection with this paper ends to-day. The considerations that have induced me to retire from the paper are of a private nature, and would be of no interest to the public. My intercourse with the proprietor, and all others connected with the paper in a business way. has been agreeable at all times.

GEO. B. CROMER.

In severing the ties which have united Mr. Cromer and myself as co-editors, none but the pleasantest feelings exist. Our intercourse all through the time it has lasted has been cordial in the extreme, and we part now in the hope on our part that the tie may at some future time be renewed. We wish Mr. Cromer the success in his chosen profession, the law, which his talents and ability entitle him to. T. F. GRENEKER.

#### THE ELECTIONS.

But little can be given definitely of the result of the elections in Ohio and West Virginia up to our time of going to press. Whether the cart loads of money from the treasury, together with the openhanded fraud and corruption practiced by the Pepublicans will work out the unholy ends of that party remains also to be seen. It looks like fighting against fate to contend against such odds, but the Democrats have taken off their coats and are bravely at work, and though we have not been among those who have set up the high hope of Democratic success, still we are impressed with the belief that when the official returns come in, that in spite of money, deputy marshalls, and all other species of fraud, honesty will prove itself to be victorious. Our special in Columbia furnishes us with the latest telegrams.

Both parties are wrought up to the highest possible degree of excitement and we fear the worst from the supplying of one thousand revolvers to Cincinnatl. It looks as if blood will be spilt. But we

Now I thought there was nothing to be more sure than that you should have had a Prosperity letter last week, but I have the satisfaction of knowing that the letter was not missed as you had a paper brimful and running over with news of general interest.

We had wanted to say something last week about Prof. Cromer's lecture to the students of the Prosperity High School, for we were charmed with the easy grace, wise council, and under current of humor that so characterise the Professor's addresses; and we only regretted that it was not more generally known that the lecture was to be given, for while it was addressed to the school yet there were lessons

for matured minds. Cotton is coming into town very rapidly notwithstanding the low prices, and business is lively. Quite an amount of new trade is being acquired. Our merchants are lively, progressive men and keep things lively. Nevertheless, I have somewhat against them, and it is this: There is not the proper distribution of business for the good of our town, for instance take confectioneries, the town could well support one or two good e-tablishments in that line, supporting two or three families, whose trade among the merchants would make them more than they make off of the confectioneries, but as it is, every merchant keeps a line of candies, &c .. and as a consequence that business is in a drooping condition. We have a drug store that keeps a bet ter line of drugs than is usually to be found in even larger towns than this. It is not only a great convenience to this immediate neigh borhood, but it brings trade that would not otherwise come here, yet some of our merchants handle drugs, crippling a legitlmate busigess to that extent. The school is a prosperous condition. Quite a anmber of families are wanting to move in, and if we had a greater diversity of business these people would have a better chance or finding occupations. Wake up brethren. don't be too selfish, give everybody

From Our Special Correspondent. "CAPITAL DOTS"

The "prospect of victory for the National Democratic ticket are brighter than a Jany time since October 1st. The Republicans have expended near a million of dollars in order to carry Ohio; if their majority is less than eight thousand, Cleveland's vote in the Electoral College will equal that of Grant's in 1872. Two weeks ago the Republicans claimed the State by 15 to 20,000, they say now 6,000 will be a great victory.

Our venerable friend, the Rev. C. H. Pritchard has been confined to his coom for three weeks with an attack similar to that from which he suffered

while at Cokesbury.

Mr. S. Beard, will open an Intelligence office in the Columbia Hotel, for the purpose of arranging accommodations for the visitors to the approaching State Fair. By corresponding with him much annoyance may be avoided and eligible board and lodging apartments secured.

The vile manifesto of Ellery M. Brayton, Chairman of the Republican Executive Committee villifying the pcople of South Carolina, has had the effect of arousing our good citizens to a sense of their danger, and shows the necessity of zealous effort, to prevent these adventurers from getting an opportunity to degrade the honor of our commonwealth, which has been so faithfully defended by the Democracy for the past eight years. The value of our State Bonds, now 106, then 4; the increase in the value of real estate; the growth of our manufac-turing interest; the healthy condition of the schools of the State and City; the harmony and good feeling now existing among all classes; proves the falsity of every charge.

The Democrats are preparing for a grand rally here, on the evening of the 15th instant.

Reeve's Band, has been engaged to faraish music for the Fair. Open air concerts are promised. The Columbia bands call aloud for protection. The visitors to the State Fair will have an opportunity to see the Columbia Amateur Company in their play "The Sca of Fe."

Milton Nobles, Patti, Booth, Owens, Rhea and others are "Free Traders," but, a little realistic drama and correspondence has revealed the fact, that they will not be here during Fair week to interfere with home talent. Reports from Southern markets.

The lecture delivered by Prof. James Weodrow, Ph. D., D. D., L. L. D., before the Alumni of the Columbia Theological Seminary in May last on Eveution, has been the theme for much discussion among the Theologians, Scientists, Moralists and Christian laity of Europe and America. The board of directors of the Seminary, sustained the Prof. by a vote of 8 to 3. A cablegram was received while the board was in session asking that the result be given immediately upon its being published. There are those who concur in the idea, that it is possible that man was evolved from a beast to that state in which God called him perfect-there are others, who feel that it is very unfortunate that a man of his intellectual powers should advance, especially should teach such doctrine to the young men of the Seminary. The lecture has been printed in pamphlet form and reprinted in the Columbia daily Register of the 5th

in-taut. Exhibits are being received daily, at the Department of Agriculture for the New Orleans Exposition. In looking over the parcels, I found that some counties have made splendid contributions. The counties from which these products are forwarded are reported well organized and fully alive to the importance of showing the material resources of their sections of the State. I regret to say I failed to find a single package from Newberry. I enquir-ed of Col. Ramseur the cause. He replied: that he had thus far failed to get a man who would take the lead in organizing the various townships, to this end. I told him that this was not

in keeping with the progressive farming spirit of Newberry County. The University has opened with 140 students. The Graded Schools with 950. The private schools of Mr. C. H. Barnwell, Misses Elmore, Miss Reynolds. Miss Martin, Miss Janney and Miss Selby, with a good attendance, also. The Columbia Female College with an increased number. In the University and College new students predominate.

The reports from the State canvass are most encouraging. If all of our people, can realize the importance of going to the polis and voting the whole ticket from President to Coroner our victory will be complete.

The following are the uncalled for letters remaining in the postoffice for the week ending Oct. II: WF Brown. JP Blackwell. Milton Coke, Mrs. Sallie Duncan. Dannie Donntnick, Mrs. S. T. It is amusing to see how tender-footed cer-tain blood remedy proprietors have become of late. They make much ado about "ages and imitators" when none are in sight.

The proprietors of B. B. B. would say most emphatically that their remedy stands upon its own merit. Should we attempt to imitate, it would not be those who do not in-derstand the modus operandi of that which they offer. Our own long experience in the profession precludes such an idea. The field for blood fremedies is large and broadlafording ample room for all present aspirants. We do not desire to close the door against others, neither shall it ibe closed against us. B. B. B. is the quickest remedy, does not contain mineral For vegetable poison, does not imitate, and is in the field as an honorable competitor for public favor. oc 16 im
